## **SKINLACTA** PLLA + HA COMPLEX

ADVANCED PLLA BIOSTIMULATION WITH  
STABILIZED HYALURONIC ACID FOR PROGRESSIVE  
SKIN REGENERATION.

A NEW GENERATION COSMETIC BIOSTIMULATOR  
DESIGNED TO SUPPORT DERMAL REMODELING,  
COLLAGEN STIMULATION, AND PROGRESSIVE SKIN  
QUALITY IMPROVEMENT.

**MADE IN ITALY**

PLLA + HA COMPLEX

## ADVANCED REGENERATIVE SOLUTION FOR AESTHETIC MEDICINE PROFESSIONALS

SKINLACTA is a versatile PLLA platform developed to support progressive biological stimulation while maintaining a refined and natural aesthetic outcome.

SKINLACTA is designed for integration into advanced aesthetic medicine protocols focused on regenerative biostimulation and dermal remodeling.

Unlike traditional volumizing approaches, PLLA supports a gradual regenerative response that integrates naturally with the skin structure, providing:

FACE & BODY  
VERSATILITY

ENHANCED  
DERMAL  
HYDRATION

PROGRESSIVE  
COLLAGEN  
STIMULATION

GREATER  
FIBROBLAST  
STIMULATION

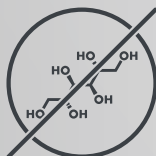

ENHANCED  
SKIN QUALITY  
AND TONE

PROGRESSIVE  
TISSUE  
REMODELING

IMPROVED  
ELASTICITY

MANNITOL  
FREE

50 mg PLLA  
50 mg Hyaluronic Acid  
5 mL vial

Developed for:	Ideal for:
<ul style="list-style-type: none"> <li>• Facial biostimulation</li> <li>• Fine skin quality improvement</li> <li>• Superficial dermal revitalization</li> <li>• Progressive collagen support</li> <li>• Larger treatment areas</li> <li>• Thicker tissue</li> <li>• Intensive body remodeling protocols</li> </ul>	<ul style="list-style-type: none"> <li>• Abdomen</li> <li>• Arms</li> <li>• Delicate skin zones</li> <li>• Face</li> <li>• Gluteal area</li> <li>• Neck</li> <li>• Perioral area</li> <li>• Thighs</li> </ul>

## PLLA + HA COMPLEX

### THE TECHNOLOGY BEHIND SKINLACTA'S PLLA

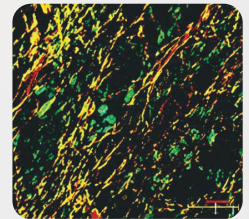

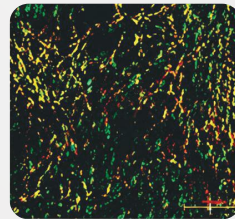

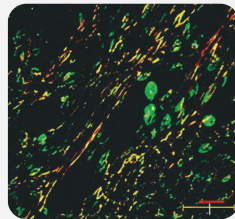

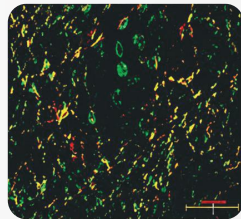

PLLA (Poly-L-Lactic Acid) is a biocompatible and bioresorbable polymer widely used in aesthetic medicine for its ability to stimulate endogenous collagen production progressively over time.

SKINLACTA combines highly purified Poly-L-Lactic Acid microspheres with Hyaluronic Acid in a patented stabilized solution, bioavailability and a smooth, predictable treatment experience.

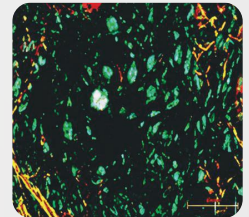

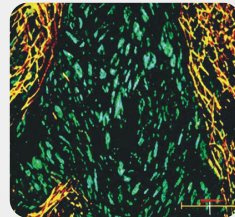

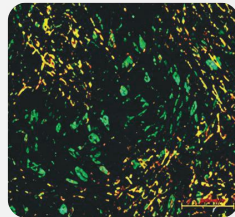

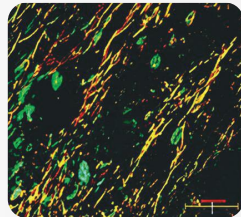

The mannitol-free formulation minimizes unnecessary excipients, contributing to natural looking, progressive and long-lasting aesthetic results.

### ADVANCED MICROSPHERE TECHNOLOGY

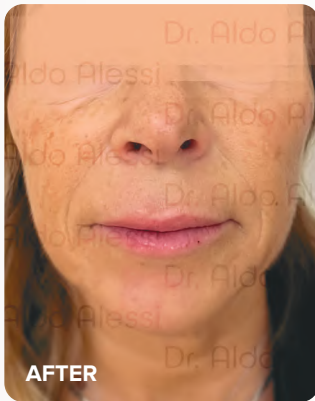

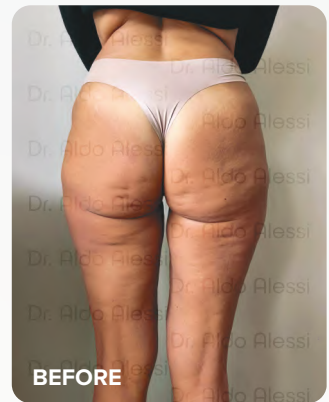

Two different microsphere dimensions ensure optimal integration with the dermis.

The perfectly spherical and homogeneous structure promotes smooth tissue integration while minimizing inflammatory response.
